

About the Presenters

Landscape: Michael Baefsky is a landscape IPM consultant. He has been researching, teaching and advising in this field since 1975. Michael's work focuses on finding ecologically sound solutions to landscape problems and assisting in their implementation.

Structural: In 1979, Jeff Van Diepen founded Pestmaster Services, a pest management consulting firm. His company specializes in IPM and in the control of structural and other pests using innovative and long-term management methods. Pestmaster Services has offices statewide.

How to Register

BY MAIL: Complete and mail registration form along with check, credit card or purchase order to:

CASBO Professional Development
600 N. 10th Street, Suite 150
Sacramento, CA 95814

BY FAX: Complete and fax registration form along with a copy of the purchase order or credit card number to (916) 447-8990. Copies of checks will not be accepted as registration.

The registration deadline is May 30, 2003. If the workshop has reached its capacity, your name will be placed on a waiting list. We can accommodate 40 districts; therefore, space is limited to one person per school district, on a first-come, first-serve basis. We recommend you register early.

Cost

The registration fee is \$20. Space is limited to 40 districts (one person per school district) on a first-come, first-serve basis. Walk-in registration will be accepted on a space-available basis, at a fee of \$20. Registration includes course material, breakfast rolls and coffee in the morning, lunch, and soft drinks at the afternoon break.

Cancellation Policy

If you cannot attend, substitutions are accepted. However, if you choose instead to cancel, a \$10 fee will be assessed for cancellation requests received 10 working days or more before the workshop. No refunds will be made for requests received after May 30, 2003. CASBO reserves the right to cancel the workshop if fewer than 25 participants enroll. If CASBO cancels the workshop, enrollees may be given the opportunity to attend the workshop in a different location or obtain a full refund.

Workshop Summary

The workshop will demonstrate IPM techniques and how to teach IPM. Students will participate in an interactive, condensed training session. Weeds in non-turf and turf areas, yellowjackets and gophers will be the main landscape problems addressed. Cockroaches, ants and pests of bathrooms, kitchens and classrooms will be covered.

Workshop Topics

- ♦ Major pests of school buildings and grounds: identification, biology, importance
- ♦ Site inspection and assessment
- ♦ Pest prevention strategies
- ♦ Practical monitoring techniques
- ♦ Action levels and how to use them
- ♦ Considerations for selection of strategies and reduced-risk pest management practices
- ♦ Recordkeeping

Major Pests:

Structural - ants, bees and yellow jackets, cockroaches, mites, rats, silverfish, mice and other small vertebrate pests

Landscape - weeds in non-turf and turf areas, stinging insects (wasps and bees), rodents (gophers and ground squirrels), and pigeons

Who Should Attend

This workshop is designed for individuals who have been designated IPM coordinators by their school districts, or other district staff who are responsible for pest management, such as administrators, maintenance and operations directors, facilities directors, groundskeepers, and custodians.

Six hours of pest control advisor (PCA) continuing education credit has been approved for this meeting.
